

GTC BURNT CHURCH-TRADEPORT 115KV TRANSMISSION LINE

PROJECT TYPE

Transmission

SCOPE

12.2 miles of 115kV transmission line with distribution underbuild

LOCATION

Brunswick, GA

CLIENT

Georgia Transmission Corporation

CONSTRUCTION START

2012

COMPLETION YEAR

2013

Irby Construction built a majority of this line along environmentally sensitive terrains of the coastal salt marsh along I-95. To accomplish this, we used an Erickson Air Crane helicopter to haul each pole base into the marsh and special equipment vibrated them into the ground within minutes. Then, the same helicopter aligned and mounted the tops of the poles on each base. We successfully completed this project on schedule using this innovative technique.

To see more on this project, watch the video at www.irbyconst.com produced by Georgia Transmission on the project.
